Insightful reviews

Lisa: A great way to finish the story that began in book one. Jim Hawkins, finds himself once again in the Nephite world, but this time he is there to rescue his daughter Melody, who was kidnapped, and his best friend Garth, who is being held prisoner. All of this is also happening during a particularly precarious time, as in the ancient world of Jerusalem, Christ is about to be crucified.

I enjoyed this book, and I found that I loved listening to the second narrator, Melody. (It might have been distracting if I had read it though.) And I thought he dealt with the scriptural aspects well and tastefully. A great read.

Natalie: Loved how the author put me into the time when Christ was resurrected. I thought his words were beautiful and it was great to imagine being there!

Kara: I can easily say this series is one of my favorites of all time. They are uplifting, exciting and extremely well-written. What's not to love???

3/26/12 I really loved re-reading this one. It describes in amazing detail when the Savior visited the Americas and makes you visualize it in a powerful way. It's always been one of my favorites, but reading it at this point in my life made it even better for me.

Emma: I enjoyed this book! no longer for little kids. it truly is according to the publication of Mormon and has nice church stuff in it!

Christa: We did this set of tapes at the means domestic from Savannah. I cherished them, however it touches too on the subject of sacred issues for me. we really accomplished the final a part of the tapes at domestic -- I know, we nonetheless personal a tape player. It was once great simply because either my husband and that i have been capable of endure our tales to our children approximately Christ coming to the Americas and approximately the way it relatively did happen. It was once enjoyable sharing those tapes with our kids.

Julie: very good teenage series. all of it occurs among present at the present time and Nephite times. a few boys find a cave that is going again in time to the Nephites. They notice the

Gadiantons or higher defined because the Gadiantons locate them and keep on with them again during the cave. So the following publication occurs in present times. It is going from side to side through the complete series. It's kinda of enjoyable to learn the BOM afterwards and bear in mind the stories.
