Insightful reviews

Diana: not the best

Virginia: Great continuation of the saga - did not go where I expected it to at first - which is probably why I enjoy Jarvis' novels so much.

Christopher: Not as good as the first but it does set up the third book fairly well

Peter: I beloved booklet 2 higher than publication 1, yet nonetheless am troubled via Jarvis' deus ex machina sort of tale telling and the character inconsistencies of his fundamental personality Audrey (the mouse). Nevertheless, i'll decide up quantity 3.

Anthony Sanabria: this booklet used to be very uninteresting i need to say the tale line didnt rather seize my awareness although i learn i couldnt rather inform you aspect by means of element fo what was once happening within the e-book of what used to be happening with those mouses so i wouldnt reconmend this publication to a person who's rather attracted to studying an exceptional book.

Donna: the tale keeps wellin the second one publication of this trilogy.
