Insightful reviews

Connie: This is #1 in A Chesapeake Shore Novel.

I loved this book about Abby Winters and her sister Jess. Even though some of the things in the book was predictable, I found it to be a delightful read. The twins added a bit of character to the book as well as all the different family members.

This book is more about family and the things you do for each other because of circumstances. There is definitely a little romance in the book, but only a part of the entire book. I like when you can tell a story and keep the whole family involved to some degree.

I am giving this 5 out of 5 stars and hope to read the next in the series.

Robin: This is the first book I've read by Sherryl Woods, and I have to say I really enjoyed it. I felt like the characters were pretty well-rounded and relatable. The father Mick reminded me a bit of my mother in the way he buried himself in work to stay away from home. The character Jess with her ADD reminded me so much of myself. A lot of what she went through in the book is what I go through daily. Some readers are saying she was a whiny screw up, and maybe she was, but she came by it honestly and while she was certainly frustrated with her family, you could see most of her frustration lay with herself and her inability to get things done, focus on work, and manage her business, and so she took that frustration out on her family. People really don't understand what you go through with ADD. It really makes the simplest things 100 times more difficult. I felt like Abby was a great big sister and she did everything she could to help Jess. I agree this book certainly followed the typical romance formula, but that in no way made it less enjoyable to read (at least for me). Sometimes that does throw me off with books, but this one really hooked me. It helped that I liked Abby and I felt like she was someone I could get behind. And the character of Trace Riley as her love interest felt like a perfect fit for her. Overall, this book drew me in, kept me interested, and was very satisfying.

Lauren: I don't expect a lot from romances & I can be kind of picky, but the characters were SO one-dimensional! Jess's ADD was not a quirk, but a real problem. How could she get mad that people expected her to screw up, when she CONSTANTLY DID screw up.

5 siblings, huh? There just might be sequels.....

Martha Treder: this can be the 1st booklet within the Chesapeake seashores series. This sequence revolves round the O'Brien family. the 1st e-book introduces us to the kinfolk in the course of the lifetime of their first born, Abby O'Brien Winters. Abby comes again to Chesapeake seashores to aid her more youthful sister, Jess who has gotten in over her head renovating the previous resort at Eagle Point. Chesapeake beaches is a city in Maryland equipped by means of the kinfolk patriarch, Mick O'Brien. Abby has made a reputation for herself within the monetary international of Wall Street. Trace Riley, Abby's outdated flame, agreed to a six month trial paintings interval at his father's bank. hint has confirmed himself as a photograph fashion designer and has little interest in taking on the bank. he's utilizing this time to persuade his father that the ideal individual for this activity is his sister, Laila. Trace's first project on the financial institution is to house the foreclosures of Jess's lodge at Eagle Point. hint agreed to offer Jess time to make strong on her mortgage and never foreclose at the situation that Abby remain in Chesapeake shorelines to supervise the monetary part of this venture. useless to say, neither sister is especially pleased with this situation. They do make the easiest of it however. hint makes use of the time to reconnect with Abby they usually either research that they nonetheless have emotions for every other. hint by no means stopped loving Abby and Abby had to be reminded of her love for hint and never to be terrified of taking a hazard to love. Complicating concerns is Abby's ex-husband, Wes Winters. he's making existence tricky for Abby through attempting to get complete custody in their dual 5-year-old daughters, Carrie and Caitlyn. Wes pulls a few soiled tips as a way to get his way, in spite of the fact that he's thwarted in his efforts. He does this simply because he's anxious that he will never see his daughters again. loads of how the O'Brien young children navigate via their lives is thru a filter out in their mom and dad divorce. whilst Abby was once seventeen and Jess used to be seven, their mom walked out on their kinfolk (as they see it). Their mother, Megan nonetheless enjoyed Mick, besides the fact that she couldn't care for his workaholic ways. the youngsters have coped with it of their personal methods and it has taken a toll on how they relate within the world. lots of the O'Brien youngsters haven't forgiven their mother, Jess especially. Sherryll Woods does an excellent activity in telling the tale of the O'Briens and in creating a reader are looking to study extra approximately this family. it is a really good heartwarming tale approximately family, love, and endurance. I will surely suggest this publication to different readers. and i'm waiting for analyzing the second one e-book during this sequence and studying extra in regards to the O'Brien family. i'm more than happy with my choice.

Elizabeth: really predictable, yet nonetheless an stress-free read, specifically for past due evening in case you desire whatever that I name an "escape book". i am a bit uninterested in those "formula books" a l. a. so much of Nora Roberts (girl thinks lifestyles is fine, is beset by means of demanding situations and/or dangers, encounters love curiosity who is helping her resolve acknowledged problems, resists growing to be emotions for stated love interest, eventually accepts her real emotions and lives fortunately ever after). Abby, a profitable Wall highway professional, is termed again domestic by means of her sister to aid store the relatives Inn. The sister neglects to inform her that an past love of Abby's is the banker in command of foreclosing at the property. A speedy read...

Kshydog: because the 1st e-book within the sequence there have been loads of characters introduced. effortless predictable formulaic sequence type. Abby and hint have been nearly too predictable for his or her love story. I did like how Abby discovered her ex husband used to be this sort of controlling individual degrading her at each chance. enjoyed the character of the grandma and her funny approach of having her element across. Jess was once excessive along with her upload matters however it additional suspense to how she used to be going to get the resort prepared on time. Their mom and dad being aside all these years exhibit that there'll be extra occurring with them.
