Insightful reviews

Barbara: This book introduces the characters of Anne Gardiner and Robert Weston quickly, and gives them the impetus to fall in love: Gardiner's senile father forces them to marry (at swordpoint, no less!) when he rescues her from falling off a ladder and misinterprets their circumstances.

That a senile old man with a sword is allowed to wander England without supervision is ludicrous enough, but then we're expected to believe that Weston really is rescuing Anne from a life of poverty. There is one cute scene that follows near the end, where Anne is dressing and Weston watches her from a mirror--that scene had wit and charm. Only if the rest of the book were so fortunate. This series is dull at best and tediously boring and overly preachy at worst. Find another of Wick's books to read.

Becky: This was a cute book which had the couple fall in love after they got married. They were really already there but they just didn't know it of course. nice and clean.

Delores Wessley: **Awesome**

This book was so very touching, so filled with joy and tears. The first book of hers was great, but now I must have the third book of the series. I have found another great author that I will search for all the time. Sign of a good book include laughter, tears and spiritual growth.

Kristelle: I discovered this tale line even more original than the 1st booklet within the series. I additionally did not become aware of that the sequence did not stick to a similar relatives yet strikes round within the town. I enjoyed the character of Anne and in addition of Weston and felt that they either reacted very quite often to the location at hand. The one half that used to be uncertain to me for alongside time was once whether they have been married within the beginning.
